Vendors Coming to 2019 Ottawa Orchid Society Show

VENDOR	SPECIALTY
Ottawa Members' Sales	Various plants and other items that are surplus to members' collections. Orchids from different society members: divisions, stem propagations, etc. of different genera and size (seedlings to blooming orchids)

Many of the dealers coming to Ottawa to sell orchid plants have much, much more in their grow areas at home and can only bring a limited stock of plants to sell at our show. If you are looking for something specific, you are encouraged to contact the vendor before the show to see if they have what you are looking for. Vendors will be happy to bring what you want if they have the item in stock, and you will avoid shipping and handling costs. Pre-ordered items will be available for pick up from the vendors from noon Saturday through to Show closing on Sunday.

Please note: Most of the photographs shown are taken from the vendor's website to give an indication of the types of plants and other materials sold by that vendor. As vendors are constantly selling and acquiring new plants and materials, an item shown on these pages may no longer be available when enquiring.

Total participating vendors: 20
